

ANNEX A

Proposed Amendments to the WESM Manual on Registration, Suspension, and De-Registration Criteria and Procedures and WESM Manual on Market Network Model Criteria and Procedures to Clarify Procedures for the Registration of a New Load Facility

WESM Manual on Market Network Model Development and Maintenance Criteria and Procedures Issue 3.0						
Title	Clause	Provision	Proposed Amendment	Rationale	Stakeholder Comment/Revision	Stakeholder Rationale
RESPONSIBILITIES – Network Service Providers	<u>3.3.2</u>	N / A	<u>The Network Service Provider shall ensure that an equipment is included in the Market Network Model prior to its issuance of Approval to Connect for energization.</u>	To include in the Network Service Provider’s responsibility, this is the recognition of the importance of the facility’s registration in the WESM as a requirement for energization. Non-registered facilities should not be allowed to be energized to inject or withdraw from the grid.		
MNM DEVELOPMENT TIMETABLE	4.5.3	The official notification from the <i>System Operator</i> should contain the date of energization, along with the details of the changes to the <i>transmission system</i> . The list of required information from the <i>System Operator</i> is described in Appendix A.	The official notification from the <i>System Operator</i> should contain the target date of energization, along with the details of the changes to the <i>transmission system</i> . The list of required information from the <i>System Operator</i> is described in Appendix A.	It is proposed that the notification only indicates the target date since the actual date is proposed to be allowed only when the equipment has been modelled.		
MNM DEVELOPMENT TIMETABLE	<u>4.5.5</u> (new)	N / A	<u>The Network Service Provider shall only allow issue the Approval to Connect for the energization of a facility</u>	To include in the Network Service Provider’s responsibility, this is the recognition of the

			<u>only when it has been included in the Market Network Model and registered in the WESM.</u>	importance of the facility's registration in the WESM as a requirement for energization. Non-registered facilities should not be allowed to be energized to inject or withdraw from the grid.		
MNM DEVELOPMENT TIMETABLE	4.5.5 4.5.6	4.5.5 The table below describes the timeline of activities involved in updating the MNM. The variable "D" stands for the target date of uploading of the new MNM. This date is set by the Market Operator upon its assessment, and is based on energization date or commissioning date of a new or upgraded equipment.	4.5.5 4.5.6 The table below describes the timeline of activities involved in updating the MNM. The variable "D" stands for the target date of uploading of the new MNM. This date is set by the Market Operator upon its assessment, and is based on energization date or commissioning date of a new or upgraded equipment.	Proposed re-numbering with the insertion of new Section 4.5.5		

ANNEX B

Proposed Amendments to the WESM Manual on Registration, Suspension, and De-Registration Criteria and Procedures and WESM Manual on Market Network Model Criteria and Procedures to Clarify Procedures for the Registration of a New Load Facility

WESM Manual on Registration, Suspension, and De-Registration Criteria and Procedures Issue 4.0						
Title	Clause	Provision	Proposed Amendment	Rationale	Stakeholder Comment/Revision	Stakeholder Rationale
FACILITY-RELATED CHANGES	3.3.6 (new)	N / A	<u>New Load Facility</u>	To include in the Market Operator's procedures, the addition of a load facility (i.e., new connection point that will withdraw energy from the grid) by a registered WESM generation company or customer (i.e., distribution utility, bulk user)		
FACILITY-RELATED CHANGES	3.3.6.1 (new)	N / A	<u>A WESM Member that has a new load facility and intends to withdraw energy from the grid through a separate market trading node shall register that load facility with the Market Operator.</u>	To clarify that load facilities that will withdraw energy from the transmission system through a connection point separate from existing facilities of the registered generation company or customer will be required to register that facility in the WESM.		
FACILITY-RELATED CHANGES	3.3.6.2 (new)	N / A	<u>The WESM Member shall comply with the technical and commercial requirements under Section 2.5.3 for the registration of its additional load facility.</u>	To clarify that the existing technical and commercial requirements will be required for the registration of an additional load facility.		

ANNEX B

Proposed Amendments to the WESM Manual on Registration, Suspension, and De-Registration Criteria and Procedures and WESM Manual on Market Network Model Criteria and Procedures to Clarify Procedures for the Registration of a New Load Facility

WESM Manual on Registration, Suspension, and De-Registration Criteria and Procedures Issue 4.0						
Title	Clause	Provision	Proposed Amendment	Rationale	Stakeholder Comment/Revision	Stakeholder Rationale
FACILITY-RELATED CHANGES	<u>3.3.6.3</u> (new)	<u>In compliance to prudential requirements, a WESM Member under the Customer category must, as soon as practical, provide an additional security commensurate to the load profile of the additional load facility.</u>	<u>In compliance to prudential requirements, a WESM Member under the Customer category must, as soon as practical prior to energization, provide an additional security commensurate to the load profile of the additional load facility.</u>	To require the WESM Member to top-up its prudential requirements corresponding to the withdrawal of its additional load facility upon registration of that load facility in the WESM, instead of being accounted only during the MO's annual assessment. This will ensure that the WESM Member will meet its obligation to make payments as required under the WESM Rules.		
FACILITY-RELATED CHANGES	<u>3.3.6.4</u> (new)	N / A	<u>The Market Operator shall assess and approve the request for the registration of an additional facility in accordance with the procedures under Sections 2.5.5, 2.5.6, and 2.5.7.</u>	To clarify that the MO will assess the registration of an additional load facility based on procedures and timelines for assessing the application of new WESM Members.		

ANNEX B

Proposed Amendments to the WESM Manual on Registration, Suspension, and De-Registration Criteria and Procedures and WESM Manual on Market Network Model Criteria and Procedures to Clarify Procedures for the Registration of a New Load Facility

WESM Manual on Registration, Suspension, and De-Registration Criteria and Procedures Issue 4.0						
Title	Clause	Provision	Proposed Amendment	Rationale	Stakeholder Comment/Revision	Stakeholder Rationale
FACILITY-RELATED CHANGES	<u>3.3.6.5</u> (new)	N / A	<u>The Market Operator shall report to PEMC any possible non-compliance to the requirement of Section 3.3.6.</u>	To ensure compliance with the obligation to register of additional load facilities, the MO should duly report to PEMC any possible non-compliances to this registration requirement.
