Data Management: Provide tools for integrating, creating, and managing multiple layers of spatial data, geographic data, tabular data, metadata, and drawings, including organizing layers, adjusting transparency, and controlling visibility. This ensures the inclusion of various data in various formats such as CSV, spreadsheets, shapefiles, geodatabases, KML files, and CAD files, and supports storing and managing the spatial data securely in the cloud. It should also contain tools for checking and validating data integrity and tools that scan the accuracy of spatial relationships and connectivity.</p> <p>7. 2D and 3D Visualization: Users can combine and interact with both 2D and 3D maps, imagery, scenes, and other data sources, allowing visualization of spatial data using different symbology, colors, and styles to represent features such as points, lines, polygons, and raster layers, and relationships between different layers of geographic data (e.g. basemap, cadastral data, topography, and land cover & use, energy resource data, demography, etc.) to create a single map.</p> <p>8. 3D Analysis and Visualization: Users are capable of accessing and performing simple 3D analysis and visualization capabilities.</p> <p>9. Spatial Analysis: Has a comprehensive range of spatial analysis tools for performing tasks such as measuring distances, calculating areas, identifying patterns, proximity analysis, and spatial statistics.</p> <p>10. Geocoding and Address Matching: Includes tools for geocoding, which converts addresses or place names into geographic coordinates, and address matching, which matches addresses to spatial data layers.</p>	

	<p>11. Story Maps: Users can create narrative-driven, interactive stories combining maps, text, images, and multimedia content and engage audiences with compelling storytelling using geographic data.</p> <p>12. Metadata Management: Allows users to create, edit, and manage metadata associated with spatial datasets, providing information about data sources, accuracy and other characteristics.</p> <p>13. Customization, Extensions, and Integration with Scripting Languages: Supports and includes a scripting environment that allows users to automate tasks, create custom geoprocessing tools, and extend functionality.</p> <p>14. Map Printing and Layout: Users can create print-ready maps with customizable layouts, map elements (such as scale bars, legends, and north arrows), and page settings for printing or sharing as PDFs or images.</p> <p>15. Sharing and Collaboration: Allows users to share maps, data, contents, projects, and analysis results with other users within the organization, online, and through web maps, web layers, online communities, and printed maps. The public can have web access to interactive dashboards and maps of energy resource contracts and applications that can be used by investors, proponents, developers, academe, government agencies & offices, and other external stakeholders for various purposes.</p>	
Provision	The software requires a high-performance computer to operate effectively. The minimum recommended specifications are specified in the attached document (Laptop Computed Specifications)

Contract Agreement Form for the Procurement of Goods (Revised)
[Not required to be submitted with the Bid, but it shall be submitted within ten (10) days after receiving the Notice of Award]

CONTRACT AGREEMENT

THIS AGREEMENT made the _____ day of _____ 20____ between [name of PROCURING ENTITY] of the Philippines (hereinafter called “the Entity”) of the one part and [name of Supplier] of [city and country of Supplier] (hereinafter called “the Supplier”) of the other part;

WHEREAS, the Entity invited Bids for certain goods and ancillary services, particularly [brief description of goods and services] and has accepted a Bid by the Supplier for the supply of those goods and services in the sum of *[contract price in words and figures in specified currency]* (hereinafter called “the Contract Price”).

NOW THIS AGREEMENT WITNESSETH AS FOLLOWS:

1. In this Agreement words and expressions shall have the same meanings as are respectively assigned to them in the Conditions of Contract referred to.
2. The following documents as required by the 2016 revised Implementing Rules and Regulations of Republic Act No. 9184 shall be deemed to form and be read and construed as integral part of this Agreement, viz.:
 - i. Philippine Bidding Documents (PBDs);
 - i. Schedule of Requirements;
 - ii. Technical Specifications;
 - iii. General and Special Conditions of Contract; and
 - iv. Supplemental or Bid Bulletins, if any
 - ii. Winning bidder’s bid, including the Eligibility requirements, Technical and Financial Proposals, and all other documents or statements submitted;

Bid form, including all the documents/statements contained in the Bidder’s bidding envelopes, as annexes, and all other documents submitted (e.g., Bidder’s response to request for clarifications on the bid), including corrections to the bid, if any, resulting from the Procuring Entity’s bid evaluation;
 - iii. Performance Security;
 - iv. Notice of Award of Contract; and the Bidder’s conforme thereto; and
 - v. Other contract documents that may be required by existing laws and/or the Procuring Entity concerned in the PBDs. Winning bidder agrees that additional contract documents or information prescribed by the GPPB that are subsequently required for submission after

the contract execution, such as the Notice to Proceed, Variation Orders, and Warranty Security, shall likewise form part of the Contract.

3. In consideration for the sum of *[total contract price in words and figures]* or such other sums as may be ascertained, *[Named of the bidder]* agrees to *[state the object of the contract]* in accordance with his/her/its Bid.
4. The *[Name of the procuring entity]* agrees to pay the above-mentioned sum in accordance with the terms of the Bidding.

IN WITNESS whereof the parties hereto have caused this Agreement to be executed in accordance with the laws of the Republic of the Philippines on the day and year first above written.
