PERMITTING AND ENDORSEMENT																											
<i>Local Government Units (LGU/s)</i>																											
<i>Barangay</i>																											
<i>Municipal</i>																											
<i>Provincial</i>																											
<i>National Commission for Indigenous People (NCIP)</i>																											
<i>Field-based Investigation (FBI)</i>																											
<i>Free and Prior Informed Consent (FPIC)</i>																											
<i>Certificate Precondition (CP)/ Certificate of Non Overlap (CNO)</i>																											
<i>Department of Environment and Natural Resources. (DENR)</i>																											
<i>ECC/CNC</i>																											
<i>Special Land Use Permit (SLUP)</i>																											
<i>Forest Land use Agreement (FLAG)</i>																											
<i>Tree Cutting Permit (TCP)</i>																											
<i>Waste Water Discharge Permit</i>																											
<i>National Water Resources Board (NWRB)</i>																											
<i>Conditional Water Permit</i>																											
<i>Ecological Study & Sustainability Plan (ESSP)</i>																											
<i>Permanent Water Permit</i>																											
<i>Bureau of Fisheries and Aquatic Resources (BFAR)</i>																											
<i>Maritime Industry Authority (MARINA)</i>																											
<i>Philippine Ports Authority (PPA)</i>																											
<i>Philippine Navy</i>																											
<i>Philippine Coast Guard</i>																											
<i>National Grid Corporation of the Philippines (System Impact Study / Grid Impact Study)</i>																											
<i>Energy Regulatory Commission</i>																											
COMPREHENSIVE FEASIBILITY STUDY																											
1. Detailed Site Survey & Monitoring																											
2. Topography and Bathymetric Survey and Monitoring																											
3. Power and Energy Estimation																											
4. Power/market study																											
5. Social and Environmental Study																											
6. Economic and Financial Study																											
7. Preliminary Scheme of Development /Design																											
8. Feasibility Study Report Generation																											
9. Research and Design / Test Deployment																											
DETAILED ENGINEERING DESIGN (DED)																											
1. Civil Works																											
2. Mechanical																											
3. Electrical																											
4. Switchyard																											
5. Transmission																											
6. DED Report Generation																											
TOTAL PROJECT COST
