RESA ON EPIRA AMENDMENT

RESA on EPIRA Amendment

- Current provisions of the law are sufficient to encourage entry of new players in the energy sector as envisioned by EPIRA
- Retail Supply Sector has very short operation history to require substantial change in rules and regulations
- Improvement of current process rather than amendment of the existing law may better serve and address current industry status

RESA COMMENTS

RESA Comments

Retail Segment Regulations and Process

- Differences between ERC, DOE and PEMC issued regulations
- PEZA classified accounts participation in the Retail Market
- Tax application for RES related transactions

RESA RECOMMENDATIONS

RESA Recommendations

- Creation of Working Group composed of ERC, DOE, BIR, PEZA, PEMC, industry stakeholders (Generation, Distribution, Transmission and Supply Sector representatives) and Consumer Sector
- Harmonization of existing regulations and processes to incorporate experience and concerns gained from the 6-months operation of the Retail Segment
- Definition of timeline regarding implementation of full retail competition incorporating comments/suggestions from all stakeholders

We support efforts of the National Government to ensure a dynamic power industry.
