Section VII. Technical Specifications/ Terms of Reference

Terms of Reference/Specifications	
<p>Department of Energy (DOE) Portal Enhancement ABC : Php2,000,000.00</p> <p>I. Background and Rationale</p> <p>The Information Technology and Management Services (ITMS), with its mandate to provide and implement ICT programs and projects including the provision of transparent, efficient and secure services and information sharing, collaboration and dissemination, endeavors the development of the DOE Portal.</p> <p>The DOE Portal serves as an online platform and collaboration tool for all stakeholders, administrators and the general public in the delivery of DOE services and information. Likewise, the ITMS would like to take the opportunity to enhance the DOE Portal to be aligned with the attainment of the United Nations and the American Society of Public Administration (UN-ASPA) Stages of e-Government Level 4 Category by establishing the "Connected Presence" which will pave the way for users to conduct complete and secure transactions online.</p> <p>In Phase I of the new DOE Portal, it has expanded from a single website primarily managed by ITMS-ITD to include one DOE parent portal and nine child portals for DOE Bureaus and Field Offices. The new portal is user-friendly, organized, and professionally designed, in compliance with Uniform Web Content Policy (UWCP) as mandated under the Administrative Order 39 s. 2013. The new portal empowers DOE offices to collaborate and keep web content updated in almost real-time. It offers convenient features like sign-ins with Office 365 for DOE staff, Gmail logins for external users, improved security with two-step verification via SMS and email for the native Liferay login, data analysis capabilities, and user-friendly dashboards for everyone who uses the portal – including DOE administrators and content managers, stakeholders, and the general public.</p> <p>To enhance its functionality and user experience, the DOE portal is pursuing several key objectives. These include the development of citizen-centric pages tailored to user roles and interests, the establishment of a DOE Portal API repository, the implementation of comprehensive audit logs, the integration of a video streaming platform, the completion of data build-up for the production environment, and the execution of vulnerability assessment and penetration testing (VAPT) to ensure the portal's security. Furthermore,</p>	<p>Bidder's Compliance</p>

the portal must be enhanced to optimize its performance to ensure a smooth and uninterrupted user experience, free from program code-related issues such as downtime, slowdowns, or bugs.

As such, the ITMS seeks to engage with a Service Provider (SP) to provide these requirements.

I. Objective

The objective is as follows:

1. To enhance the user interfaces, features, and functionalities of the DOE Portal.

III. Scope of Works:

The SP shall be required to provide the following Scope of Works (SOW):

1. Provide the detailed business requirements for the enhancement of the DOE Portal (Refer to Annex A); and

ANNEX A

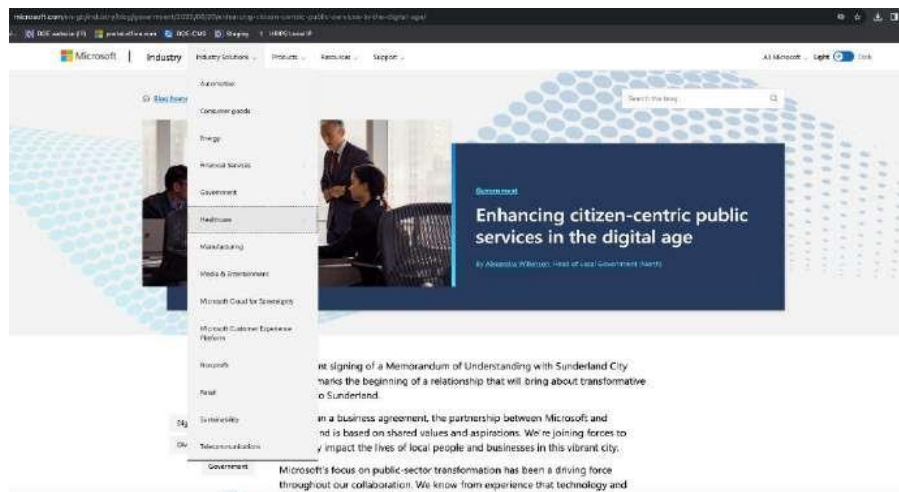

Pre-Identified Requirements for the Enhancement of DOE Portal User Interfaces, Features, and Functionalities

The following are some of the pre-identified requirements:

1. All enhancements must be compatible with the existing ICT platforms (i.e., Liferay CMS 7.4.3.30 and Nuxt) **Upgraded version of CMS Liferay is acceptable as long as it maintains compatibility with the existing ICT platforms.**
2. Conduct of VAPT by a third-party service provider which is not affiliated with the SP
3. New interactive and dynamic page based on user interest (for logged in users)
4. New interactive, dynamic, and citizen-centric pages (for anonymous and logged in users) for the following DOE stakeholders:
 - a. Investors
 - b. Researchers
 - c. Students
 - d. Consumer
 - e. Other government agencies
 - f. General Public

Proposed Storyboard for Requirements 3 & 4:

Scene 1: Home Page

- A visually appealing default home page of the DOE Parent and Child Portals
- Additional widget: User role selection: "I am an Investor", "I am a Researcher", "I am a Student", "I am a Consumer", "I represent a Government Agency", and "I represent the General Public".

Scene 2: Anonymous Users

- Option for anonymous users to explore the website without registration.
- User selects a Role: "I am an Investor", "I am a Researcher", "I am a Student", "I am a Consumer", "I represent a Government Agency", and "I represent the General Public"
- Displays the visually appealing landing page for a specific role pulling all related and appropriate web contents displayed in a new page:
 - Investors: Investment-related web contents (i.e., online services, investment opportunities, sector-specific press releases and announcements, laws and issuances, and financial reports)
 - Researchers: Researcher-related web contents (i.e., online databases, plans and programs, laws and issuances)
 - Students: Educational-related web contents
 - Consumers: Consumer-related web contents (i.e., consumer welfare, price watch, announcements, job opportunities)
 - Government Agencies: Other government agency-related web contents (i.e., plans and programs, laws and issuances, data

sharing tools, inter-agency collaboration options, and shared resources.

- General Public: All web contents (default home page for anonymous user)

Note: Appropriate web contents shall be defined during the requirements elicitation workshop.

Scene 3: Registration

- Via native registration: Option for the General Public to register including his/her user role (e.g., Investor, Researcher, Student, Consumer, Government Agency, and General Public).
- Via Gmail SSO: Option to update his/her profile including his/her user role (e.g., Investor, Researcher, Student, Consumer, Government Agency, and General Public).
- User can select his/her country with corresponding country code via dropdown list and enter his/her active mobile number.

Scene 4: Personalized Landing Page (After Login)

- Users may login to the Portal via Native Liferay Login or Gmail SSO.
- A dynamic landing page displaying personalized content displayed in new page based on user's interest and role.

Scene 5: Personalized, User Role and/or Interest –Specific Page

- User-specific page components/widgets including but not limited to:
 - a. Relevant menu for different types of user roles
 - b. Smart and advanced search
 - c. Accessibility Widget (Philippine Web Accessibility Guidelines compliance)
 - d. Relevant online services
 - e. Relevant web contents
 - f. Other relevant user interface (UI) components for dynamic, interactive and improved user experience
- Collect user activity/behavioral data to personalize content and navigation for registered users.

Scene 6: Smart and Advanced Search

- Provide smart search just like Google search
- Provide advanced search options with filters that allow users to refine their search results based on their preferences.
- Remember a user's previous search criteria for their convenience.

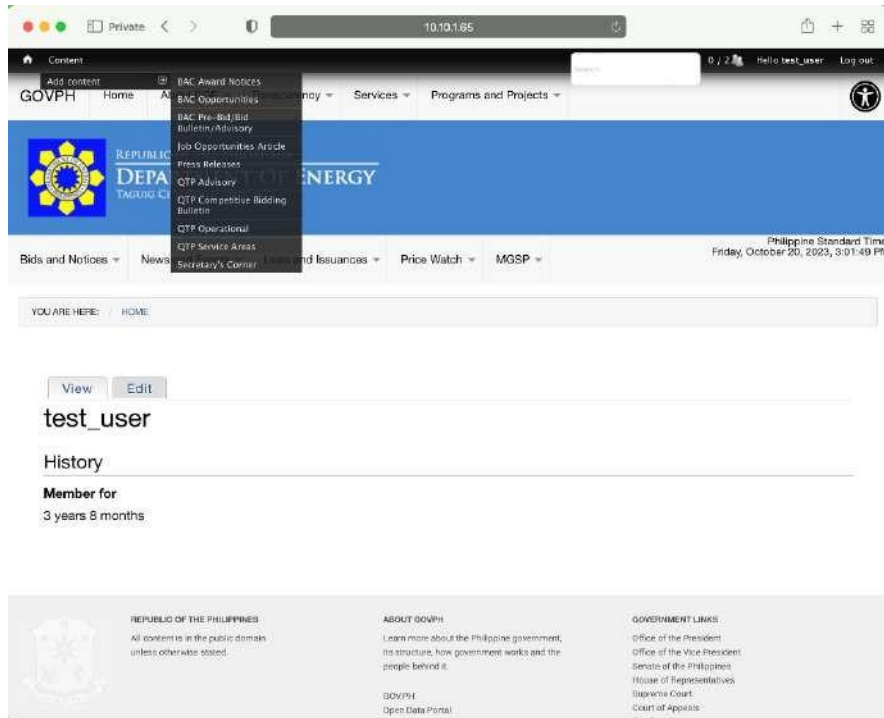

Scene 7: Content Tagging

- Option for the web content managers to input metadata about the intended audience (role) and sector (interest), to be used for the dynamic and citizen-centric frontend pages.

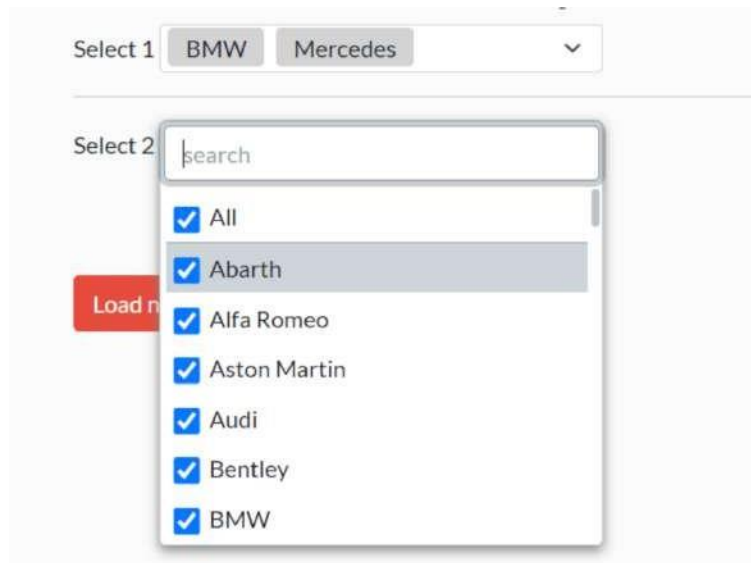

5. Additional content management features:

- Distinct and limited access permissions to CMS contents for different content creators (i.e, media user, BAC user, etc.)
- Improvement of User Interface (UI) in the CMS using multiple selection dropdown list for aggregations, categories, groups, and subjects

- Content manager logs in via CMS admin page
 - CMS homepage displays personalized menu items and modules based on user permissions
 - User permission shall include modules, portal/site, and folder
 - With multiple selection dropdown list for aggregations, categories, groups, and subjects
6. Creation of other secure API methods (i.e., get, post, patch, put, and delete)
 7. Creation of secure DOE API Repository using Swagger or Sandbox API documentation which includes but not limited to API endpoint names, methods, parameters, schemas, headers, responses, requests, etc.
 8. Provision of API versioning for future maintenance and continuous iteration
 9. Secure DOE APIs must include but not limited to the following contents:
 - Articles per category, per subject, per group, per site
 - Press Releases
 - Office Directory
 - Featured Videos
 - Q uick Links
 - Main Navigation per portal
 - Auxiliary Navigation per portal
 - Online Services per portal
 - DOE General Services
 - Side Bar Links per portal
 - Featured Articles
 - Portals/Sites

Proposed Storyboard for Requirements 6-9:

Scene 1: Authorizing an API Account

- Portal Administrator logs in to the Administrator Dashboard
- Options to create new API entry

Scene 2: Accessing API Specifications (using Swagger or Sandbox documentation)

- Authorized user accesses the DOE Portal API documentation
- Options to view the API Specifications
- To access the DOE API, the user can paste the token provided by the administrator to test data consumption.

Scene 2: Consuming API

- Authorized developer consumes API data in his/her third-party application
- Options to perform CRUD operations depending on his/her permission

10. Provision of audit logs including event logs, user logs, system logs

Proposed Storyboard for Requirement 11:

Scene 1: Managing videos

- Portal Administrator logs in via Video Management Server
- Options to manage videos

Scene 2: Embedding of videos to the Portal

- Content manager or Portal Administrator logs in via CMS admin page
- Options to embed video using a script

12. The DOE Portal must be enhanced to efficiently handle concurrent access by all users, ensuring a seamless experience without hang-ups, downtime, slowdowns, or bugs. SP must provide a report that the portal passed the following tests:

- Load Testing - involves simulating real-world usage by subjecting the application to a high volume of simultaneous users to evaluate its performance under heavy load.
- Stress Testing - pushes the application beyond its limits to identify the breaking point. It helps determine how the application behaves under extreme conditions, including heavy traffic and resource constraints.
- Performance Testing - focuses on measuring various performance metrics, such as response time, throughput, and resource utilization, to ensure the application functions optimally under a heavy load.

13. Complete data build-up of the production environment

14. Proposed storyboards are still subject to changes, refinement and improvement during the design and implementation phases at no additional cost to DOE. The SP may recommend industry standards and best practices.

15. Other requirements, features, and functionalities which may be identified during the requirements elicitation activities at no additional cost to the DOE.

Contract Agreement Form for the Procurement of Goods (Revised)
[Not required to be submitted with the Bid, but it shall be submitted within ten (10) days after receiving the Notice of Award]

CONTRACT AGREEMENT

THIS AGREEMENT made the _____ day of _____ 20____ between [name of PROCURING ENTITY] of the Philippines (hereinafter called “the Entity”) of the one part and [name of Supplier] of [city and country of Supplier] (hereinafter called “the Supplier”) of the other part;

WHEREAS, the Entity invited Bids for certain goods and ancillary services, particularly [brief description of goods and services] and has accepted a Bid by the Supplier for the supply of those goods and services in the sum of *[contract price in words and figures in specified currency]* (hereinafter called “the Contract Price”).

NOW THIS AGREEMENT WITNESSETH AS FOLLOWS:

1. In this Agreement words and expressions shall have the same meanings as are respectively assigned to them in the Conditions of Contract referred to.
2. The following documents as required by the 2016 revised Implementing Rules and Regulations of Republic Act No. 9184 shall be deemed to form and be read and construed as integral part of this Agreement, *viz.:*
 - i. Philippine Bidding Documents (PBDs);
 - i. Schedule of Requirements;
 - ii. Technical Specifications;
 - iii. General and Special Conditions of Contract; and
 - iv. Supplemental or Bid Bulletins, if any
 - ii. Winning bidder’s bid, including the Eligibility requirements, Technical and Financial Proposals, and all other documents or statements submitted;

Bid form, including all the documents/statements contained in the Bidder’s bidding envelopes, as annexes, and all other documents submitted (*e.g.*, Bidder’s response to request for clarifications on the bid), including corrections to the bid, if any, resulting from the Procuring Entity’s bid evaluation;
 - iii. Performance Security;
 - iv. Notice of Award of Contract; and the Bidder’s conforme thereto; and
 - v. Other contract documents that may be required by existing laws and/or the Procuring Entity concerned in the PBDs. Winning bidder agrees that additional contract documents or information prescribed by the GPPB that are subsequently required for submission after

the contract execution, such as the Notice to Proceed, Variation Orders, and Warranty Security, shall likewise form part of the Contract.

3. In consideration for the sum of *[total contract price in words and figures]* or such other sums as may be ascertained, *[Named of the bidder]* agrees to *[state the object of the contract]* in accordance with his/her/its Bid.
4. The *[Name of the procuring entity]* agrees to pay the above-mentioned sum in accordance with the terms of the Bidding.

IN WITNESS whereof the parties hereto have caused this Agreement to be executed in accordance with the laws of the Republic of the Philippines on the day and year first above written.
