- a. For Goods offered from within the Procuring Entity's country:
 - i. The price of the Goods quoted EXW (ex-works, ex-factory, ex-warehouse, ex-showroom, or off-the-shelf, as applicable);
 - ii. The cost of all customs duties and sales and other taxes already paid or payable;
 - iii. The cost of transportation, insurance, and other costs incidental to delivery of the Goods to their final destination; and
 - iv. The price of other (incidental) services, if any, listed in e.
 - b. For Goods offered from abroad:
 - i. Unless otherwise stated in the **BDS**, the price of the Goods shall be quoted delivered duty paid (DDP) with the place of destination in the Philippines as specified in the **BDS**. In quoting the price, the Bidder shall be free to use transportation through carriers registered in any eligible country. Similarly, the Bidder may obtain insurance services from any eligible source country.
 - ii. The price of other (incidental) services, if any, as listed in **Section VII (Technical Specifications)**.

13. Bid and Payment Currencies

13.1. For Goods that the Bidder will supply from outside the Philippines, the bid prices may be quoted in the local currency or tradeable currency accepted by the BSP at the discretion of the Bidder. However, for purposes of bid evaluation, Bids denominated in foreign currencies, shall be converted to Philippine currency based on the exchange rate as published in the BSP reference rate bulletin on the day of the bid opening.

13.2. Payment of the contract price shall be made in: Philippine Pesos

14. Bid Security

- 14.1. The Bidder shall submit a Bid Securing Declaration or any form of Bid Security in the amount indicated in the **BDS**, which shall be not less than the percentage of the ABC in accordance with the schedule in the **BDS**.
- 14.2. The Bid and bid security shall be valid until 28 November 2021. Any Bid not accompanied by an acceptable bid security shall be rejected by the Procuring Entity as non-responsive.

15. Sealing and Marking of Bids

Each Bidder shall submit one copy of the first and second components of its Bid.

The Procuring Entity may request additional hard copies and/or electronic copies of the Bid. However, failure of the Bidders to comply with the said request shall not be a ground for disqualification.

If the Procuring Entity allows the submission of bids through online submission or any other electronic means, the Bidder shall submit an electronic copy of its Bid, which must be digitally signed. An electronic copy that cannot be opened or is corrupted shall be considered non-responsive and, thus, automatically disqualified.

16. Deadline for Submission of Bids

16.1. The Bidders shall submit on the specified date and time and either at its physical address or through online submission as indicated in paragraph 7 of the **IB**.

17. Opening and Preliminary Examination of Bids

17.1. The BAC shall open the Bids in public at the time, on the date, and at the place specified in paragraph 9 of the **IB**. The Bidders' representatives who are present shall sign a register evidencing their attendance. In case videoconferencing, webcasting or other similar technologies will be used, attendance of participants shall likewise be recorded by the BAC Secretariat.

In case the Bids cannot be opened as scheduled due to justifiable reasons, the rescheduling requirements under Section 29 of the 2016 revised IRR of RA No. 9184 shall prevail.

17.2. The preliminary examination of bids shall be governed by Section 30 of the 2016 revised IRR of RA No. 9184.

18. Domestic Preference

18.1. The Procuring Entity will grant a margin of preference for the purpose of comparison of Bids in accordance with Section 43.1.2 of the 2016 revised IRR of RA No. 9184.

19. Detailed Evaluation and Comparison of Bids

19.1. The Procuring BAC shall immediately conduct a detailed evaluation of all Bids rated "*passed*," using non-discretionary pass/fail criteria. The BAC shall consider the conditions in the evaluation of Bids under Section 32.2 of the 2016 revised IRR of RA No. 9184.

19.2. If the Project allows partial bids, bidders may submit a proposal on any of the lots or items, and evaluation will be undertaken on a per lot or item basis, as the case maybe. In this case, the Bid Security as required by **ITB Clause 14** shall be submitted for each lot or item separately.

19.3. The descriptions of the lots or items shall be indicated in **Section VII (Technical Specifications)**, although the ABCs of these lots or items are indicated in the **BDS** for purposes of the NFCC computation pursuant to Section 23.4.2.6 of the 2016 revised IRR of RA No. 9184. The NFCC must be sufficient for the total of the ABCs for all the lots or items participated in by the prospective Bidder.

19.4. The Project shall be awarded as One (1) Project having several items that shall be awarded as one contract.

19.5. Except for bidders submitting a committed Line of Credit from a Universal or Commercial Bank in lieu of its NFCC computation, all Bids must include the NFCC computation pursuant to Section 23.4.1.4 of the 2016 revised IRR of RA No. 9184, which must be sufficient for the total of the ABCs for all the lots or items participated in by the prospective Bidder. For bidders submitting the committed Line of Credit, it must be at least equal to ten percent (10%) of the ABCs for all the lots or items participated in by the prospective Bidder.

20. Post-Qualification

20.2. Within a non-extendible period of five (5) calendar days from receipt by the Bidder of the notice from the BAC that it submitted the Lowest Calculated Bid, the Bidder shall submit its latest income and business tax returns filed and paid through the BIR Electronic Filing and Payment System (eFPS) and other appropriate licenses and permits required by law and stated in the **BDS**.

21. Signing of the Contract

Procurement of Service for the Conduct of Philippine e-Mobility Stocktaking, Market Assessment and Strategy Development for the Alternative Fuels and Energy Technology Division	Bidder's Compliance
TECHNICAL SPECIFICATIONS AND TERMS OF REFERENCE	

1. Background and Context

Rationale for Promoting E-Mobility in the Philippines

It is in the interest of the Philippines to pursue electrification of its transport system to address the following:

Air Pollution

Air quality in Metro Manila and other urban centers in the country has worsened over the years mostly due to vehicle emissions. A World Health Organization Study in 2018 indicated that the Philippines has the third highest air pollution related death globally after China and Mongolia. The State global air report on the other hand included the country among the top ten nations with the highest air pollution-related mortality rates in the world. Greenpeace estimated the Philippines to have 11,000 to 27,000 air pollution related deaths annually. Economic loss from air pollution nationally is estimated to be between 0.8 to 1.9 percent of the GDP.

The transition to zero emission vehicles such as electric vehicles (EVs) is expected to significantly contribute in managing of air pollution especially in major cities where most of the vehicles are concentrated.

Climate Change Mitigation Commitments

Transport is estimated to account for 34% of the total GHG emissions in the country with 80% of which is traced to road transport. The wider adoption of electric vehicles is expected to ease up GHG emissions from the sector despite of some fossil fuel share in the country's three (3) grids.

Energy Security and Oil Imports

Philippines is importing 97% of its crude and finished petroleum product requirements putting at risk the energy security of the country. In addition, it creates a huge dent in the export-import balance of the country. It could be noted that mineral fuel and oils account for 12% of the country's total imports placing second only to electronic goods. The situation is also expected to get worse as the country's existing oil reserves gets depleted and it's gas to power project at Malampaya begins to produce less and less by 2024.

Industry Development and Job Generation

It is important for the country to preserve and further improve its vehicle manufacturing standing in the region by positioning itself as a main hub for EV manufacturing, as the world shifts to EVs away from ICEs. A significant EV market locally is expected to provide the country with a leverage in attracting car companies to produce their vehicles locally. The simplicity of the technology provides an opportunity for the local automobile industry to leapfrog the ICE era and start to build home grown vehicle brands that could eventually compete with the rest of the region. The development of the local EV industry is also expected to stimulate other industries such as battery chemistry and its production, charging infrastructure, IT and data sharing, and digitalization of the power system. The industrial development for e-Mobility will essentially create a new ecosystem for job creation and economic growth and job creation.

Government EV initiatives and the need for a National e-Mobility Roadmap

Legislation initiatives, in support of electric vehicles in the upper and lower houses are currently on-going and may be approved in their current or modified form in the present congress. In addition, various initiatives by government agencies are ongoing in support of the electrification of the road transport seeking to create demands, develop the industry and facilitate the infrastructure development. The Department of Trade and Industry (DTI) Electric Vehicle Policy Study reiterated for the need of a strategic approach to e-mobility development in the country aided by legislation and taking into account the realities on the ground. The National e-Mobility Roadmap seeks to capture all the elements required to accelerate and sustain the electrification of mobility in the country. Likewise, its crafting needs to be based on detailed background and preparatory studies to ensure its soundness. The Department of Energy (DOE) seeks a service provider for the baseline local statistics and global and local electric vehicle-related policies review for the country.

2. Objective of the Assignment

The aims of the assignment are to carry out background data analysis and provide technical inputs to the Philippine Government as it crafts its National e-Mobility Roadmap.

3. Scope of Work and Tasks

The service provider for the Philippine e-Mobility Stocktaking, Market Assessment and Strategy Development shall closely coordinate with the Service Provider (winning bidder) of the Philippine eMobility Roadmapping. The service provider shall discuss strategies with the EV Roadmap service provider such as immediate sharing of every reports (including findings, recommendations, among others) to ensure a timely integration of their outputs/reports in the EV Roadmap to be able to meet the deadline of the submission of the Philippine EV Roadmap on or before the 1st week of December 2021.

The service provider for the Philippine e-Mobility Stocktaking, Market Assessment and Strategy Development shall produce four (4) reports consolidating findings in the following tasks:

Task 1 – Conduct of Assessment on International Experience Overview in Initiating E-Mobility Development

Task 1 involves preparing a report to provide an overview of experience and lessons from other countries in initiating e-mobility development in the past. The overview should include, but not limited to:

- g) EV smart charging infrastructure development strategy, programs, policies and business models and renewable energy (RE) integration strategy;
- h) EV financing, leasing and other deployment models;
- i) Private sector e-Mobility usage and status, strategy and program;
- j) Public transport e-Mobility usage and status, strategy and program;
- k) Government e-Mobility usage and status, strategy and program;
- l) Tourism industry e-Mobility usage and status, strategy and program;
- m) Logistics industry e-Mobility usage and status, strategy and program;
- n) Corporate e-Mobility usage status, strategy and program;
- o) Support to and role of innovation in the whole e-Mobility program development;
- p) E-Mobility related standards development and implementation;
- q) Challenges and bottlenecks encountered; and
- r) Global EV and battery supply chain.

This task is a desk-based review of existing studies and materials. The report will be developed into presentation slides for use in the EV road-mapping workshops.

Task 2 – Conduct of e-Mobility Statistics and Policy Stocktaking

Task 2 involves preparing a short chapter to assess policy and regulatory gaps that need to be filled to create necessary enabling environment for e-Mobility development in the Philippines based on best practices and the implementation in other countries. The service provider will review all existing policies and regulations that are broadly related to e-Mobility, including but not limited to:

- a) E-Mobility adoption statistics;
- b) E-Mobility database and current developments – parts and component suppliers, vehicle retailer, vehicle and parts manufacturers, e-Mobility operators, EVSE suppliers, and EV charging service provider;
- c) Availability of EV models in the local market and price range;
- d) Relevant national legislation;
- e) E-Mobility related industrial and investment policies and programs for automobile sector, energy sector, digitalization;
- f) Relevant fiscal and non-fiscal incentives and disincentives;
- g) Relevant policies, regulations and programs related to public and commercial transport fleets and services;

- h) Relevant land use regulations, urban planning, building codes, parking regulations;
- i) Relevant technical standards, specifications, product quality and regulatory framework;
- j) Public procurement framework;
- k) Relevant policies and regulations for data governance;
- l) Local EV smart charging infrastructure development strategy, programs, policies and business models and RE integration strategy;
- m) Support for e-Mobility innovation; and
- n) Relevant local government policies and programs
- o) Relevant plans of the EV manufacturers/suppliers.

Task 3 – Conduct of Market Segment Based Assessment and Gap Analysis

Task 3 involves preparing a chapter to provide an analysis to better understand the current and potential EV demand in the country. This should detail and characterize the following e-Mobility market segments:

- a) Personal and household
- b) Public transport
- c) Logistics
- d) Tourism
- e) Commercial and corporate
- f) Government

The assessment should seek to understand the level of awareness and view of the sector towards e-Mobility adoption, vehicle usage characteristics (e.g. vehicle type, usage frequency and range, current operating cost, etc.), cost comparison with conventional units and bottlenecks for the adoption of the vehicles.

This task is to be implemented through desk review and complemented by interviews and consultations as needed. The report will be developed into presentation slides for use in the EV road-mapping workshops.

Task 4 – Conduct of Market Development Strategy Formulation

This section shall summarize the various market and policies to facilitate the strategic adoption of EVs in the country drawing from the information generated previously. The strategy shall contain national level interventions as well regional specific targets and strategies. Special attention shall be provided in maximizing existing programs, policies and legislations in effecting maximum adoption benefits of EVs in each sector while also identifying other policies and support that may be explored.

This task is to be implemented through desk review and complemented by interviews and consultations as needed. The report will be developed into presentation slides for use in the EV road-mapping workshops.

I/We accept that: I/we will be automatically disqualified from bidding for any procurement contract with any procuring entity for a period of one (1) year for the first offense, or two (2) years for the second offense, upon receipt of your Blacklisting Order if I/We have violated my/our obligations under the Contract;
3. I/We understand that this Performance Securing Declaration shall cease to be valid upon:
 - a. issuance by the Procuring Entity of the Certificate of Final Acceptance, subject to the following conditions:
 - i. Procuring Entity has no claims filed against the contract awardee;
 - ii. It has no claims for labor and materials filed against the contractor; and
 - iii. Other terms of the contract; or
 - b. replacement by the winning bidder of the submitted PSD with a performance security in any of the prescribed forms under Section 39.2 of the 2016 revised IRR of RA No. 9184 as required by the end-user.

IN WITNESS WHEREOF, I/We have hereunto set my/our hand/s this ____ day of [month] [year] at [place of execution].
