

REPUBLIC ACT NO. 11234

“An Act Establishing the Energy Virtual One-Stop Shop for the Purpose of Streamlining the Permitting Process of Power Generation, Transmission, and Distribution Projects”

(Energy Virtual One-Stop Shop Act)

Energy Virtual One-Stop Shop (EVOSS) Act

Declaration of Policy

- a) Ensure the quality, reliability, and security of energy at reasonable cost by undertaking measures to guarantee that supply meets demand in a timely manner;
- b) Recognize the indispensable role of the private sector in power generation, transmission, and distribution by attracting new power generation, transmission, or distribution projects through an improved ease of doing business index, and reducing high transaction costs associated with copious requisites for proponents;
- c) Ensure transparency and accountability in the process of approving power generation, transmission, or distribution projects; and

Declaration of Policy

- e) Deliver efficient and effective service to public by:
 - 1. Ensuring timely completion of power generation, transmission, or distribution projects by:
 - i. eliminating duplication, redundancy, and overlapping mandates in documentary submissions and processes
 - ii. supplying an online platform for government agencies to coordinate and share information; and
 - 2. Providing a paperless and electronic application and processing system which serves as a single gateway
 - i. through which proponents can access all information necessary in the application for a new generation, transmission, or distribution project
 - ii. submit all requirements related to the application, and monitor the approval of such application

Scope

- Subject to Sections 9(j) and 11(i) of the Act, all new power generation, transmission, and distribution projects throughout the country
- Government agencies and other relevant entities involved in the permitting process

RA11234

- *Section 9(j) Vice-Chairperson: Recommend to the EVOSS Steering Committee the possible expansion of the use of the platform to other energy licensing processes, if any.*
- *Section 11(i) EVOSS Steering Committee: Act upon any recommendation to the Vice-Chairperson to expand the use of the platform to other energy licensing processes;*

EVOSS Functions

Recognize the legal effect, validity, and enforceability of **electronic documents** submitted

Establish a system of **high availability, business continuity and cyber security**

Utilize a **technology platform and an operations management software platform** to build defined processes and forms within a strict timeframe using published standards

EVOSS Characteristics

Operate as a **one hundred percent (100%) virtual storage** and rules driven system built as an **integrated shared service**

Provides a secure and accessible **paperless system** which proponents may:

1. Obtain list of all electronic documentary requirements
2. Prepare, submit, process, and receive actions on all submitted electronic documentary requirements
3. Monitor and inquire on the status of ongoing applications
4. Calculate, pay, and settle all appropriate fees electronically
5. Submit complaints concerning inaction on submitted electronic documents

Utilizes **online payment system** for all fees imposed for applications

Provide a **secure and accessible system** for all Government agencies and entities involved in the permitting process to **interoperate** with respect to:

- a. Unified and streamlined process
- b. Unified templates
- c. Compliance to mandated processing time
- d. Updating and monitoring of all electronic documentary requirements for action
- e. Determining which government bureau, office, agency, GOCC, LGU, or entity an ongoing application is in and its status in there

EVOSS Steering Committee

Office of the President
as **Chairperson**

DOE Secretary
as **Vice Chairperson**

Members:

DAR

Awarded Projects

- Awarded Wind Energy Service Contracts for Own Use (as of June 30, 2017)
- Awarded Wind Energy Service Contracts (as of June 30, 2017)
- Awarded Solar Energy Service Contracts for Own Use (as of June 30, 2017)
- Awarded Solar Energy Service Contracts (as of June 30, 2017)
- Awarded Ocean Energy Service Contracts (as of June 30, 2017)

[view all](#)

Requirements

- NWRB-Application for Water Permit
- DOE-Service or Operating Contract Application
- DOE-Application for Accreditation to Manufacture Biofuels
- DOE-Accreditation of Manufacturers, Fabricators and Suppliers
