

ADVISORY

To : **ALL CONCERNED STAKEHOLDERS**

From : **ALESSANDRO O. SALES**
Chairperson, Review and Evaluation Committee
Undersecretary, Department of Energy

Subject : **PETROLEUM AREAS OPEN FOR NOMINATION**

Date : **18 September 2024**

We are pleased to announce that the Pre-Determined Area (PDA) Nos. PDA-PD-1 (Calauit Field) and PDA-PD-2 (Alegria Field) that were previously offered under the 2024 Philippine Bid Round are now being opened for nomination under the Philippine Conventional Energy Contracting Program (PCECP).

During the Opening of Application Documents conducted by the Department of Energy (DOE) conducted last 27 August 2024, it was found that:

- PDA-PD-1 received no applications; and
- PDA-PD-2 received one (1) application but failed to submit complete application documents, hence, was disqualified for further substantive evaluation.

In view of the foregoing, both PDAs may be applied for by other interested parties at any given time through the nomination-based contracting of the PCECP.

Should you wish to apply for the said PDAs or other Area/s of Interest (AOIs) that you have delineated in other parts of the country, you may submit an Area Clearance Request with the attached Technical Description (set of geographic coordinates) and location Map of the area to be nominated, and address it to the DOE Information Technology and Management Services (DOE-ITMS).

Please be guided accordingly.
