## AREA NO. 7 - TIBIAO

### BACKGROUND

- The Hydropower Service Contract (HSC) which previously covered the development of the project was awarded on 02 February 2010 and was eventually terminated on 12 December 2014.
- The HSC expired on its own term and was terminated due to the RE Developer's failure to comply with the requirements for the conversion from pre-development to development stage (submission of permits, clearances, agreements, five-year work plan, etc.)
- The Feasibility Study and Detailed Engineering Design were undertaken by Vergel<sup>3</sup> Consult on November 2008 and January 2009, respectively.
